Carprix

Company: SDSol Technologies

https://play.google.com/store/apps/details?id=com.app.carprix&hl=en

Tools: Android Studio, Java, XAML

CarPrix is a FREE car valuation app available for smartphones. CarPrix allows users to upload their vehicle's information and request quotes from friends, connections, and automotive professionals.

Features:
- Multimedia: Add photos, videos and audio notes to describe a car's condition.
- Connect with contacts: Ask them for quotes on your vehicle, chat with them, and answer any questions related to the car.
- No need for usernames or passwords: CarPrix will validate your phone number, send a verification code to access the app, and import your phone's address book.
- Get notified every time one of your contacts provides a quote on your vehicle.
- Share your location in order to get the most accurate quote for your car in your area.
- Search with your VIN and receive current market value for your car.
- Send broadcast request and receive quotes from dealership users.

Amplifyd

Company: LOGICON

Tools: Android studio,Jira,Git,Confluence

Amplifyd is a digital platform that connects brands and influencers smartly.Amplifyd is a data driven digital platform that connects brands and influencers smartly. The app aims to fulfil every marketer's influencer marketing needs. With it's constantly updating directory, Amplifyd enables users to connect with their desired brands or influencers.

Humminz

Company: SDSol Technologies

https://play.google.com/store/apps/details?id=com.app.humminz

Tools: Android studio

Humminz is a simple media platform that brings new energy and urgency to modern-day social media. The core feature of the entire solution is that all messages and/or message boards disappear within 24 hours.

Furthermore, Humminz intends to bring integrity back to the social media genre. Over the past year, the big social media companies have taken a stand of disseminating and selling user data. Humminz intends to take the exact opposite approach. Humminz will keep your profile and user content private and encrypted. Humminz will not sell data to advertisers or share info with 3rd parties.
